

## Declaration of Intention

I declare from the core of my heart, my intention to serve my source, I align myself fully and completely to the heart of the one infinite creator. I dedicate this life to being my true heart song across all the cosmos. I surrender my ego now to be in service to the law of one mission of First Cause Light as a Pillar of Light. In the light of truth, I declare and intend, I AM that I AM! I am a Soul Sovereign Being!

## Connection With Guardian Hosts and Krystal Star.

In this very I AM present moment of now, I declare my intention of creating an alchemical container, holding sacred space in unity and love.

I call upon all of my ancestors past present and future, holding compassionate neutral perspective, to be present now.

I call Upon my Avatar God Self, The Guardians, Aurora Families and The Krystal Star Matrix.

I call to my soul family, my Galactic family, and my entire soul Matrix of my I AM presence.

I ask for gatekeeping now and to hold space for a spiritual court of equity as we align to the Law of One Mission to work together for the highest capacity of exchange of GODS's infinite light, love and power in divine right order and harmony.

I unify with you now as I reclaim my sovereignty and freedom from all systems of domination and control and the full alignment of the double diamond heart template, to resurrect all codes to living light again.

With my feet anchored into the Earth Mother, I acknowledge the physicality of this realm I honor the four directions, the Elementals, the heart of Earth Mother and the true sacred geometry of the Prime Creator.

With a loving , as this sacred Circle is opened, anchor lock and seal this for vortex now THANK YOU!
